MUHAMMAD IVAN MUNTAHIR

+6282131894237 | ivanmuntahir26@gmail.com | https://www.linkedin.com/in/muhammadivanmuntahir/ | http://ivanmuntahir.github.io/my-portfolio

Tuban, East Java, Indonesia

I am a Computer Engineering graduate with extensive experience in the end-to-end processes of planning, conceptualizing, and executing projects across both software and hardware domains. My software development expertise encompasses web development with Front-End and Back-End Systems, AR/VR development utilizing Unity, and SEO optimization. On the hardware side, I specialize in IoT development, sensor integration, electrical systems, and embedded systems. My passion for continuous learning and my adaptability to diverse conditions enable me to effectively tackle new challenges and integrate cutting-edge technologies. This holistic approach ensures a seamless blend of innovative software solutions with practical hardware implementations, driving comprehensive technological advancements.

Work Experiences
